CONTENTS FOR

FLUID MECHANICS–Soviet Research

Volume 8, Nos. 1–6, 1979

Number 1

1 **Experimental Study of the Discharge of Supercritical Steam from Laval Nozzles**
S. M. Srebnyuk

9 **Investigation of Boundary-Layer Separation in a Hypersonic Conical Nozzle**
P. I. Gorenbukh

17 **Effect of Interaction between Droplets on Results of Erosion Tests**
R. G. Perel'man and G. I. Saprugov

23 **Sudden Expansion of a Supersonic Jet in a Cylindrical Channel**
V. I. Blagosklonov and V. A. Khomutov

30 **A Method for Calculating the Axial Velocity in an Array of Axisymmetric Jets Issuing from a Perforated Plate**
Ye. P. Dyban and A. I. Mazur

39 **Experimental Study of the Flowfield on the Leeside of a Plate in Viscous Hypersonic Flow**
Yu. V. Nikol'skiy

48 **Investigation of the Pressure Distribution over the Surface of a Cylinder in a Longitudinal Hypersonic Flow**
V. G. Artonkin

53 **Experimental Study of the Drag of Circular Cylinders of High Aspect Ratio at Re $\ll$ 1**
L. P. Vronskaya and G. I. Taganov

60 **A Variational Principle in the Euler Description for Three-Dimensional Gasdynamic Flows with Allowance for Addition of Energy and Mass**
N. V. Saltanov

69 **The Effect of Boundary Layer Thickness and Transverse Curvature of the Surface on the Geometry and Forces Acting in the Separation Zone Produced by Injection of a Jet into a Supersonic Flow over That Surface**
A. I. Zubkov and A. I. Glagolev

80 **An Approximate Method for Calculating the Aerodynamic Coefficients of Bodies with Three-Dimensional Projections**
D. M. Voytenko, A. I. Zubkov and Yu. A. Panov

96 **Intensity of the Electric Field of an Arc in a Free Turbulent Jet**
A. D. Lebedev and B. A. Uryukov

103 **Concerning the Information Efficiency of Aerodynamic Experiments**
G. L. Grodzovskiy

112 **Balance Testing of Heavy Models in an Impulse [Hot-Shot] Wind Tunnel**
V. A. Dmitriyev, V. V. Zatoloka and V. I. Zvegintsev

V. I. Blagosklonov and V. A. Khomutov

30 **A Method for Calculating the Axial Velocity in an Array of Axisymmetric Jets Issuing from a Perforated Plate**
Ye. P. Dyban and A. I. Mazur

39 **Experimental Study of the Flowfield on the Leeside of a Plate in Viscous Hypersonic Flow**
Yu. V. Nikol'skiy

48 **Investigation of the Pressure Distribution over the Surface of a Cylinder in a Longitudinal Hypersonic Flow**
V. G. Artonkin

53 **Experimental Study of the Drag of Circular Cylinders of High Aspect Ratio at Re $\ll$ 1**
L. P. Vronskaya and G. I. Taganov

60 **A Variational Principle in the Euler Description for Three-Dimensional Gasdynamic Flows with Allowance for Addition of Energy and Mass**
N. V. Saltanov

69 **The Effect of Boundary Layer Thickness and Transverse Curvature of the Surface on the Geometry and Forces Acting in the Separation Zone Produced by Injection of a Jet into a Supersonic Flow over That Surface**
A. I. Zubkov and A. I. Glagolev

80 **An Approximate Method for Calculating the Aerodynamic Coefficients of Bodies with Three-Dimensional Projections**
D. M. Voytenko, A. I. Zubkov and Yu. A. Panov

96 **Intensity of the Electric Field of an Arc in a Free Turbulent Jet**
A. D. Lebedev and B. A. Uryukov

103 **Concerning the Information Efficiency of Aerodynamic Experiments**
G. L. Grodzovskiy

112 **Balance Testing of Heavy Models in an Impulse [Hot-Shot] Wind Tunnel**
V. A. Dmitriyev, V. V. Zatoloka and V. I. Zvegintsev

122 **Effect of the Relative Area of the Flow Core on the Performance of a Hypersonic Wind Tunnel**
V. Ya. Bezmenov
133 **Effect of the Proximity of the Wall on Hot-Wire Readings in Laminar and Turbulent Boundary Layers**
A. S. Zemskaya, V. N. Levitskiy, Ye. U. Repik and Yu. P. Sosedko
142 **An Instrument for Measuring the Flow Velocity in Flowpaths of Hydraulic Turbomachinery Operating under Transient Conditions**
Yu. N. Laptev and S. I. Rovnoy
147 **Electrical Analysis of the Electrodiffusive Flow and Shear Transducer**
V. A. Malkov and Ya. Ya. Tomsons

Number 2

1 **The Jet Contraction Ratio in the Discharge of a Gas through a Hole with a Sharp-Edged Inlet**
M. P. Ryabokon'
11 **The Drag on a Sphere in a Low-Velocity Flow of Rarefied Gas**
Yu. I. Khlopov
18 **Investigation of the Leakage of Superheated Steam from Radial Labyrinth Seals**
V. I. Solomko, V. I. Sivakov and Ye. F. Samsonov
26 **Entry of a Disk into Water at an Angle of Attack**
O. P. Shorygin and N. A. Shul'man
37 **Hydrodynamic Analysis of a Squid-Type Pulsed Propulsion Engine**
I. M. Chernyy and V. S. Siryy
51 **The Viscosity of Dilute and Moderately Concentrated Polymer Solutions. The Intrinsic Viscosity**
V. P. Budtov
63 **Rheology of Concentrated Polymer Solutions**
V. Ye. Dreval'
88 **Viscosity Relationships for Heavily Filled Suspensions**
V. V. Moshev
97 **Effect of the Hydrostatic Pressure on Rheological Properties of Polymer Melts**
S. B. Aynbinder
109 **The Energy Balance for a Suspension-Bearing Flow and Its Consequences**
S. I. Kril'
118 **The Average Velocity Profile and the Frictional Loss in Turbulent Flow of an Aqueous Suspension of Clay**
I. L. Povkh, N. I. Bolonov and A. Ye. Eidel'man
125 **Concerning the Gravitational Theory of Transport of Suspended Solids by Turbulent Liquid Flows**
S. I. Kril'
132 **Influence of the Bounding Surfaces on the Development of a Vapor Cavity in an Underwater Spark Discharge**
V. V. Shamko and A. I. Vovchenko
142 **Measurement of the Electron Concentration and Electrical Conductivity in an Air-Water Vapor Mixture Behind a Strong Shock Wave**
M. K. Gladyshev, V. A. Gorelov and A. I. Danilevich
152 **The Development of Small-Amplitude Oscillations in a Laminar Boundary Layer**
Yu. S. Kachanov, V. V. Kozlov and V. Ya. Levchenko
157 **Two-Dimensional Nozzle and Jet Flows of a Multiphase Mixture**
V. I. Blagosklonov and A. L. Stasenko

LETTER TO THE EDITORS

169 **Void Fraction and Pressure Drop in Two-Phase Upflow at Atmospheric Pressure**

Number 3

1 **The Relationship between Scale Characteristics of Inhomogeneous Turbulent Flows and the Vortex Structure**
B. N. Kostyunin, L. S. Kokorev and M. Ye. Kalinushkin

7 **On the Determination of the Mixing Length for Turbulent Channel Flow**
M. Kh. Pravdina

14 **Hydrodynamics of Polymer Solutions Exhibiting Low Eddy Friction**
V. N. Kalashnikov

24 **Pressure-Induced Change in Rheological Properties of Non-Newtonian Fluids**
A. Kh. Mirzadzhanzade

35 **Flow of Anomalous Fluids in Porous Media**
V. M. Yentov and A. M. Polishchuk

48 **Investigation of Rheological Properties of Polymer Solutions Flowing through Porous Media**
I. A. Shvetsov

62 **The Selection of Additives for Controlling Drag in Flow of Crude Oil**
I. G. Bulina

70 **A Method for Calculating the Pressure Drop in the Circulation Loops of Refrigerating Systems with Two-Phase Ammonia Flows**
R. P. Peredistaya

79 **Experimental Determination of the Size Distribution and Phase Surface of Drops of a Dispersed Fluid**
V. S. Ivanov, I. M. Fedotkin, A. M. Kolodin, and G. S. Demchuk

86 **Phase Slip in a Flow of a Gas-Liquid Mixture**
I. M. Chernyy and S. M. Srebnyuk

93 **Concerning the Induced Mass of a System of Bubbles**
S. M. Srebnyuk and V. A. Gorban'

103 **Stability of "Dry Patches" in Thin, Falling Liquid Films**
I. I. Gogonin, A. R. Dorokhov and V. N. Bochagov

110 **Velocity Profiles in the Hydrodynamic Stabilization Zone of a Falling Film Produced by Slot with Non-Parallel Sides**
Ye. G. Vorontsev and O. M. Yakhno

118 **Length of Entry Zone of Laminar Irrigating Films**
Ye. G. Vorontsov and O. M. Yakhno

123 **On the Electromagnetic Method of Measuring the Velocities and Rates of Dielectric Flows**
A. V. Zosimov

129 **Effect of the Electric Field on the Flow of a Dilute Suspension of Solid Dielectric Particles in a Flat Duct**
I. F. Nasif and Yu. I. Shmakov

138 **Thrust Augmentation by Injection of Water into a Marine Air Jet Engine**
I. M. Chernyy and A. I. Kravtseva

Number 4

1 **Hydraulic Drag and Pattern of Air Flow in Crossflow over Different Rows of Bundles at High Re**
P. S. Poškas, V. J. Survila and A. A. Žukauskas

17 **Experimental Study of the Flow and Mass Transfer in Submerged Jets Impinging on Baffles with Allowance for the Reophysical Factor and Swirl**
D. P. Gegers, P. Glowacki, N. A. Pokryvaylov and D. A. Prokopchuk

38 **Velocity Profiles in a Rectangular Duct with Laminar Non-Newtonian Flow**
V. Lobek, N. A. Pokryvaylov, D. A. Prokopchuk and V. N. Topchiy
48 **Applications of the Electrorheological Effect in Engineering Practice**
R. G. Gorodkin, Ye. V. Korobko, G. M. Blokh, V. K. Gleb, G. I. Sidorova and M. M. Ragotner
62 **Rheological Properties of High-Viscosity Paints**
A. M. Volkov
73 **Investigation of the Thermophysical Properties of High-Viscosity Paints**
A. M. Volkov
80 **A Probabilistic-Statistical Approach to Determination of the Velocity Distribution in a Gas Boundary Layer**
Yu. V. Seleznev and N. P. Selezneva
85 **Pressure Drop in Downtake Turbulent-Film and Gas Flows**
I. M. Fedotkin, V. S. Ivanov, V. S. Lisman, M. N. Chepurnoy and V. E. Shnayder
91 **Certain Features of an Array of Axisymmetric Jets Issuing from a Perforated Plate**
Ye. P. Dyban and A. I. Mazur
99 **Experimental Study of Flow of Air in a Gap Formed by Two Rotating Disks**
Ye. P. Dyban and V. Ya. Kabkov
105 **Corollaries of the Hugoniot Equation**
L. G. Filippenko
115 **Experimental Investigation of the Surface Velocities in the Containment Zone of an Air-Water Barrier**
I. V. Pyatetskiy
120 **Calculation of Behavior of Airflows over Heated Ponds**
N. G. Poznyaya and V. I. Zhadan
129 **Gasdynamic Analysis of Gas-Turbine Combustion Chambers with Graduated Air Admission**
G. N. Lyubchik, V. A. Khristich and V. P. Kuts

Number 5

1 **Hydrodynamics of Cavitating Flows with Perturbations**
G. V. Logvinovich and V. N. Buyvol
12 **A Variational Hydrodynamic Model of Heterogeneous Mixtures in the Euler- and the Euler-Lagrange Formulations**
N. V. Saltanov
21 **Deformation and Breakup of Spherical Solids Undergoing Phase Change (Melting) within a Flow of Carrier Fluid**
V. G. Glushchenko, Yu.G. Mokeyev and A. I. Kravtseva
26 **Approximate Analysis of Cavities with Allowance for Surface Tension and Gravity**
Yu. P. Shevchuk
33 **Analysis of a Vertical Axisymmetric Cavitating Flow Around a Body**
V. N. Basharova and V. V. Serebryakov
38 **Vibrations of Bent Tubes of a Tube Bundle in Crossflow of Water**
V. I. Katinas, V. S. Šuksteris and A. N. Mikishev
50 **Flow Dynamics and Heat Transfer in Bundles of Smooth Tubes in Crossflow of Aviation Fuel at Low Reynolds Numbers**
E. Bubelis, R. Ulinskas and A. Žukauskas
60 **Investigation of Hydraulic Transport of Freight Capsule in Pipelines**
A. Ya. Oleynik, V. M. Karasik, S. I. Kril' and V. N. Kondakov
69 **A Method for Calculating Pressure Drop in Pressure Flow of High-Loading-Ratio Slurries**
S. I. Kril'

79 **Euler and Lagrange Methods in the Theory of Two-Phase Flows with Variable Particles Size of the Discrete Phase**
A. A. Shrayber

88 **Description of the Erosional Capacity of Smoothly Varying Streams in Terms of Particle Size of Granular Bed Material in State of Limiting Equilibrium at the Stream Bed Level**
A. N. Rakhmanov

102 **A Stochastic Model of the Erosion of Cohesionless Soil by Turbulent Flow**
V. M. Donenberg

111 **Conditions of Limiting Stability of Particles of Cohesionless Bottom Sediments in a Turbulent Channel Flow**
A. B. Alkayeva, V. M. Donenberg and I. G. Kvasova

121 **Investigation of Kinematic Characteristics of Nonuniform Flow under Conditions of Limiting Stability on the Channel Bottom**
I. G. Kvasova

133 **Dimensionless Equations Describing the Conditions for Onset of Motion of Cohesionless Soils in Channel Bottom and on Its Sloping Banks**
M. A. Mikhalev

Number 6

1 **The Basic Models of Mechanics of Liquids and Gases in the Theory of the Wing**
G. Yu. Stepanov

28 **Modeling of the Motion of a Body in Water, with Allowance for Compressibility of the Water**
Yu. L. Yakimov, V. A. Yeroshin and N. I. Romanenkov

34 **A New Method of Organizing Developed Cavitation Flows**
V. P. Karlikov, A. N. Khomyakov and G. I. Sholomovich

50 **Boundary Layer on a Moving Surface. Non-Self-Similar Solutions**
G. G. Chernyy and V. M. Zubarev

58 **Mechanical Degradation of Polymer Molecules in Turbulent Flow**
N. G. Vasetskaya, V. A. Ioselovich and V. N. Pilipenko

75 **Discontinuous Solutions in Mechanics of Continua**
A. A. Barmin and A. G. Kulikovskiy

96 **Models of Multiphase Polarized and Magnetized Media**
V. V. Gogosov, V. A. Naletova and G. A. Shaposhnikova

114 **Fluid-Dynamic Description of Flows of Partially Ionized Nonideal Gas Mixtures in Chemical Equilibrium**
G. A. Tirskiy
